

DESCRIPTION

LIQUID FERTILIZER 20-2-3 is formulated with special forms nitrogen to provide even, slow release of nutrients to the turf grass. This allows for heavy nitrogen applications - without burning of the grass. Use this fertilizer to provide all the nitrogen necessary for lush top growth and fast greening. It is recommended for all varieties of ornamental turf.

LIQUID FERTILIZER 20-2-3 gives the best, most uniform nutrition and gives new life and color to grass quickly.

KEEP FROM FREEZING. Cold or freezing weather may cause this product to separate or thicken. This will not harm performance. Before using, warm to room temperature and stir thoroughly.

DISPOSAL:

Offer empty container for recycling. If recycling is not available, discard container in trash.

*For industrial and commercial use only.
For additional information, see Safety Data Sheet.*

GROUND MAINTENANCE

LIQUID FERTILIZER 20-2-3

GUARANTEED ANALYSIS	
Total Nitrogen (N)	20.0%
0.6% Ammoniacal Nitrogen; 14.4% Urea Nitrogen; 5.0% Other Water Soluble Nitrogen*	
Available Phosphorus as Phosphoric Acid (P ₂ O ₅)	2.0%
Soluble Potash (K ₂ O)	3.0%
*5.0% Slowly Available Nitrogen derived from Water, Urea, Ammonium Polyphosphate and Muriate of Potash.	

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions®
PO Box 240014 • Milwaukee, WI 53224 • 1-800-743-6417

DIRECTIONS

LIQUID FERTILIZER 20-2-3 is highly concentrated and must be diluted with water before application.

For spring and summer application, dilute 16 to 32 oz. of fertilizer with 1 to 2 gallons of water for uniform application to 1000 square feet. For larger applications, dilute 5-1/2 to 11 gallons of fertilizer in up to 40 gallons of water to cover 1 acre. Spray fertilizer evenly over soil. For best results, use a non-ionic surfactant in the spray mixture. Using higher concentrations of the fertilizer will sustain a longer period of greening. Water thoroughly after spraying to wash nutrients into the soil. For most effective results, apply during planting time, then reapply every 1-2 months depending on soil, weather and grass conditions.

NFPA® RATINGS

Health: 1; Flammability: 0; Reactivity: 0
