

#### DESCRIPTION

This surfactant is a specially formulated spreading and wetting agent designed to increase the effectiveness of agricultural chemical sprays. It reduces the surface tension of fertilizer and pesticide solutions, allowing them to penetrate into the soil quickly, for less run-off and waste. The great wetting action also assures even and thorough coverage of foliage and reduced wash-off of expensive chemicals. Proper use of this surfactant will provide optimum performance and cost effectiveness of agricultural chemical applications.

Wash thoroughly after handling. Wear eye protection, protective clothing, protective gloves. Take off contaminated clothing and wash it before reuse.

**IF ON SKIN:** Wash with plenty of water. **If skin irritation occurs:** Get medical advice/attention. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **If eye irritation persists:** Get medical advice/attention.

#### DISPOSAL

Offer empty container for recycling. If recycling is not available, discard container in trash.
