PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wear long sleeved shirt, long pants, socks, and shoes. Wash thoroughly with soap and water after handling.

PERSONAL PROTECTIVE EQUIPMENT (PPE): Loaders, applicators, and other handlers must wear the following: Long-sleeve shirt – Long pants - Shoes and socks.

USER SAFETY REQUIREMENTS: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not re-use.

USER SAFETY RECOMMENDATIONS: User must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User must remove clothing/PPE immediately if pesticide gets inside them. Then wash thoroughly and put on clean clothing. Users must remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through run-off. This product has a potential for runoff for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging in the treatment area. This product contains the quick killing botanical insecticide pyrethrum, an extract of the chrysanthemum flower, which provides effective control of insects upon direct contact with an added benefit of flushing these insects to aid in a more complete kill. The silicon dioxide, in this product, provides long term control through a depositing (drying) action. Put the powder down and wait until it continues to dry up to 6 months.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all directions completely before use.

USE RESTRICTIONS: Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in area during application. Do not apply this product in hospitals, nursing homes, or patient rooms while occupied or in any rooms while occupied by the elderly or infirm. Do not apply in classrooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate areas when occupants are present. Do not make spray applications when facility is in operation. Do not apply in classrooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate areas when occupants are present. Do not make spray applications when facility is in operation. Do not apply in classrooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate areas when occupants are present. Do not make spray applications when facility is in operation. Do not apply in classrooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate areas when occupants are present. Do not make spray applications when facility is in operation.

ENTRY RESTRICTIONS: Do not enter or allow others to enter until dusts have settled.

Application Restrictions: Only apply as a spot treatment to areas no greater than 3 feet by 3 feet per room. Aerial applications are prohibited. Applications with power duster equipment are prohibited. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Do not make applications during the day when water is available to the treated area to the point of use. Extensive exposure to a pesticide (including health concerns, medical emergencies, or pesticide incidents), contact the National Pesticide Information Center at 1-800-922-5636.

APPLICATIONS WITHIN FOOD/FEED AREAS: In food/feed processing plants and warehouses, bakeries, beverage and bottling plants, restaurants, schools, kitchens, super markets, and poultry processing plants, hotels, motels, hospitals, milking areas, meat, poultry and other livestock areas, are limited to crack and crevice treatment only. Using a bulbous or mechanical duster apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where listed insects hide. Do not deposit the product onto exposed surfaces or into the air. Do not contaminate food or food processing surfaces.

APPLICATION OF THIS PRODUCT IN FOOD/FEED AREAS OF FOOD/FEED HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE PROHIBITED.

NON-FOOD/NON-FEED AREAS: Non-food/non-feed areas of food/feed handling establishments are areas such as garbage rooms, laundries, floor drains, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage.

Cockroaches: Waterbugs, Palmetto Bugs, Crickets, Firebrat, Silverfish, Booklice, Spiders, Centipedes, Sawtoothed Grain Beetle, Straw WR: Warehouse Beetles, Red Flour Beetle, Grey Gran; Mites, Tenebrio, Granary Insects and Wealearms. Find and destroy infested package goods. Remove all items from pantry, shelves and drawers. Distribute this product at the rate of 2 ounces per 100 square feet of surface area. Thoroughly treat floors, walls and other surfaces in bins, storage and handling areas, shelves, drawers, equipment processing and handling equipment. Ask and Carlos or contain other areas where these insects tend to congregate. Apply no more than once a week.

FIRE ANT: Sprinkle 1 to 3 teaspoons over each fire ant mound. Use 1 teaspoon on very small mounds (1 to 3 inches in diameter) and 3 teaspoons over large mounds (4 to 8 inches in diameter or greater). For best results, apply when ants are active and avoid treatments in heavy dew or before rainfall. Do not disturb the ants while applying the material. Do not apply water after application. Repeat the application if the ants reappear more than once a week.

DRYWOOD TERMITES: To protect against entrance, using a bulbous or hand operated duster, distribute this product through an entry, crawl hole into attic and crawlspace of building, at a rate of 1 ounce per 100 square feet. Close all vents and blowers on the windward side. Contact all wood surfaces. In case of localized infestations, probe to locate galleries and drill holes to inject this product into the galleries. If a reasonably heavy infestation is suspected, employ professional treatment. Apply no more than once a week.

SEWER TREATMENTS: Cockroach infestations in sanitary sewers may be treated with approximately 4.5 ounces of this product per manhole. When treating sewers, treat one manhole per 200 feet of line. Treatments are made by removing the manhole cover and replacing with a disc of plywood bored to receive the usual flexible hinge from portable to truck mounted ventilating equipment. 4.5 ounces of this product is introduced into the ventilating air to be dispersed quickly and thoroughly through the system. Apply no more than once a week.

STORAGE AND DISPOSAL: Do not contaminate food, water or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse is a violation of a Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available.
