TRACTION N MORE is a unique non-skid safety coating designed to accident-proof areas where operational conditions such as oil, grease, water and ice reduce the normal traction needed for safety. A special epoxy formulation that stands up and provides an easy to maintain non-skid coating. Ease of application and excellent coverage up to 600 ft.² for the Master Kit.

DIRECTIONS:

Clean floor by acid etching with 15% muriatic acid removing surface grease, oil, etc. Remove components A & B from container. Blend Part A & B for 3 to 5 minutes. Spread a thin uniform coat over area. Broadcast Non-Slip aggregate over wet area. Coat again as necessary.
