

NEW PRODUCT ANNOUNCEMENT

Accu-Shield™ SG Clear Barrier Panels

Provide sneeze guard style protection throughout work areas in offices, warehouses, and commercial settings with unobstructed views while safeguarding workers, customers, and visitors against the spread of germs and viruses. Easily create a protective barrier among individuals with Accu-Shield™ SG Clear Barrier Panels.

Shield sets up quickly, can be kept in place, or move from one work area to another or stores flat when not in use. Notch handle cutout at the top* for easy-to-carry mobility.

A versatile protective barrier for any industry, choose versions that suspend, set on a countertop, stands freely, or use as a portable barrier. This shield is ideal for areas where social distancing space is unavailable.

Features

- Thick, clear shield is specially formulated high-impact and shatter-resistant thermoplastic
- Maintains optical clarity, even after repeated wipe-and wash-downs
- Chemical resistant plastic cleans easily with any disinfectant cleaning product

Benefits

- Shield creates a barrier to protect employees and customers for a safe and healthy environment
- Helps prevent the spread of germs and viruses, and avoid unnecessary downtime due to illness
- Lightweight and versatile for any location set-up, take-down, portability, and flat storage
- Cleanable surface with disinfectants without residue or wear
- Customizable in design and size

*Unavailable for Countertop-Desktop Panels with Side Wings or Hanging Panels
