Morse Forklift-Karriers have a 20’ (6 m) long pull chain loop with 10’ (3 m) drop so you control drum tilting, 360° in either direction. Dispense a drum right from your forklift. Can also be ordered with Hand Crank or Hand Wheel option for use only within reach.

We recommend the MORStop Tilt-Brake option to automatically hold the drum tilt angle until you move it. This prevents a partially full, unbalanced drum from turning out of control, even when the contents shift from one end to the other.

Half-full rating is an indication of capacity for tilting an unbalanced, bottom-heavy drum. A partially full drum with unbalanced and shifting load is harder to tilt than a full drum.

- **Models 285A & 285AM**
  - Accepts Diameter Adapters for your smaller drum
  - Bolt-on Top Rim Clamp or Bracket Assembly to handle a plastic or fiber drum
  - Includes a cinch chain cover to help protect the sidewall of your drum
  - Incorporates alloy cinch chain and durable stress relief weld joints

Models 285A & 285AM

- Chain wheel controlled tilt with 30:1 gear ratio and safety cover
- Handle drum with drum faucet in place
- Capacity: 800 Lb. (363 kg) full-drum
  - 500 Lb. (227 kg) half-full drum

- **Installed Options**

  - **Web Strap with Ratchet**
    - We recommend Option # 3900-P MORStop Tilt-Brake factory installed on your Forklift-Karrier is recommended to automatically hold the drum tilt angle.
    - Kit # 3900-P MORStop Tilt-Brake Kit for

  - **Option X02-285 or X02-285M**
    - 9” (22.9 cm) Hand Wheel

  - **Option X03-285**
    - 16’ (40.6 cm) Hand Wheel

- **MORCINCH™ Drum Handling System**
  - Automatically adjusts for 22” to 23.5” (56 to 59.7 cm) diameter drum
  - Diameter Adapters insert into the drum holder to handle a smaller drum. Select the correct size Diameter Adapter for each drum. Spark resistant and stainless steel Diameter Adapters also available.
  - Web Strap with Ratchet installed (not for spark resistant models)

- **Smaller Drum Diameter Adapters**
  - Handle smaller diameter drums with this Kit # 4560-P Rim Clamp Assembly, or Kit # 4560M-P Spark Resistant Rim Clamp Assembly.

- **Top Plastic Drum Diameter Adapters**
  - Handle a 55-gallon (210 liter) rimmed plastic drum or more securely handle a drum with this Kit # 4565-P Bracket Assembly, or Kit # 4565M-P Spark Resistant Bracket Assembly.

- **Rimless Plastic Drum Bracket Assembly**
  - Handle rimless poly drum or more securely handle a drum with this Kit # 4565-P Bracket Assembly, or Kit # 4565M-P Spark Resistant Bracket Assembly.

- **Rimmed Plastic Drum Top Rim Clamp**
  - The Top Rim Clamp grips the upper rim of your drum to prevent it from slipping through the drum holder. Use to handle a 55-gallon (210 liter) rimmed plastic or fiber drum with top rim, you must install either the Bracket Assembly or the Top Rim Clamp. Kit # 4560-P Rim Clamp Assembly, or Kit # 4560M-P Spark Resistant Rim Clamp Assembly.

- **Diameter Adapters**
  - Diameter Adapters for Small Diameter Drums

- **Chain wheel controlled tilt** with 30:1 gear ratio and safety cover

- **Capacity**:
  - 800 Lb. (363 kg) full-drum
  - 500 Lb. (227 kg) half-full drum

- **Web Strap with Ratchet**
  - Option X02-285 or X02-285M 9” (22.9 cm) Hand Wheel

- **Hand Wheel**
  - Option X03-285 16” (40.6 cm) Hand Wheel
Steps For Use of Forklift-Karriers

1. Drive your truck forks into the Forklift-Karrier’s fork pockets.
2. Dismount and screw down the safety locks to grip the forks.
3. Drive to a drum at ground level, so that the drum holder meets the center of your drum.
4. Secure your drum in the drum holder between drum ribs... no tools are needed. To secure drum, drape the cinch chain of the drum, insert one link into the slot on the ratchet handle, and turn the ratchet handle clockwise to tighten the cinch chain around the drum.
5. If your Forklift-Karrier is so equipped, tighten the Top Rim Clamp or adjust the Bracket Assembly height.
6. Raise your forklift carriage and the secured drum, then travel to the dumping location.
7. To control turning of the drum without leaving your seat, pull the chain loop for complete control of drum tilting.
8. To remove drum from your Forklift-Karrier, turn the ratchet handle clockwise to relieve pressure on the ratchet teeth, lift pawl handle to release teeth engagement, then rotate the ratchet handle counter clockwise to loosen the chain and allow its removal from the slot on the ratchet handle.

Diameter Adapters

Diameter Adapters allow your Forklift-Karrier to handle a smaller drum. Simply place the correct size Diameter Adapter into the drum holder. When you complete dispensing from your smaller drum, simply lift the Diameter Adapter out of the drum holder to return to handling a 55-gallon (210 liter) drum.

Diameter Adapters for 17.5" (44.5 cm) diameter and smaller drums have brackets at top and bottom of the drum. They adjust to securely hold a drum up to 38" (96.5 cm) tall. Spark resistant and stainless steel Diameter Adapters are available for the same diameter ranges.

285 Series Dimensions

IMPORTANT: Requires 25" Between Forks

Fork pocket openings are 6.5" wide x 2.5" high (16.5 x 6.35 cm).
Fork pockets are 26.5" deep (67.3 cm).
Inside width between forks MUST be at least 25" (63.5 cm).
NOTE: Standard loop of pull chain extends approximately 10' (3 m) beyond the chain wheel. Custom lengths are available.

Custom Drum Handler

Custom model 185S-HD-FP handles drum completely below the forks. Requires 17.5" (44.5 cm) between forks. Or use below-hook with your crane.

Use with:
- Walkie Stacker
- Forklift
- Crane or Hoist below-hook
